

MUSKAAN AMLANI

I am a B.ARCH graduate with good skills in design, problem-solving, and teamwork. I have gained experience in working collaboratively, managing deadlines, and communicating effectively with team members.

Working for your firm and getting first-hand experience in the same would be a huge opportunity for me. Eager to bring my writing skills and architectural knowledge to your dynamic team, and looking forward to learn the different horizons of Architectural and Interior design.

I hereby express my deep interest in joining you as a **Architecture Research Internship**.
